

CORRIGENDUM

This article has been amended following publication.

With the approval of the Editorial Committee and the agreement of all parties concerned, this *Corrigendum* has been issued to correct an inadvertent omission in the list of co-authors of the following article:

Original article:

***Colletotrichum* sp. ASSOCIATED WITH SOYBEAN AND CORN ANTHRACNOSE IN THE PAMPAS REGION OF ARGENTINA**

Chilean Journal of Agricultural & Animal Sciences 41(1), 2025.

DOI of the original article: 10.29393/CHJAAS41-13AWMI10013

The originally published version of the article listed the following individual as the sole author:
Miriam Incremona

The corrected author list is as follows:

Miriam Incremona, Carlos Cairo, Facundo Hernández, and Rosanna Pioli

The published manuscript derives from the author's Doctoral Thesis, conducted at the Faculty of Agricultural Sciences, Universidad Nacional de Rosario (Argentina).

The author reports that, due to an inadvertent omission, the contributions of Dr. Rosanna Pioli (Doctoral Thesis Supervisor), Dr. Carlos Cairo (Co-Supervisor), and Dr. Facundo Hernández to the preparation and writing of the published manuscript were not adequately acknowledged. Therefore, in order to formally document the contributions supporting their inclusion as co-authors of the article, their respective contributions are detailed below:

Author contributions

Dr. Rosanna Pioli and Dr. Carlos Cairo developed the Framework Project that established the objectives, hypotheses, techniques, and methodological criteria underlying the published manuscript. Regarding the results, Dr. Rosanna Pioli participated in the macro- and micromorphological identification of the fungal collection. Dr. Rosanna Pioli and Dr. Carlos Cairo jointly participated in the molecular characterization using RAPDs, while Dr. Facundo Hernández conducted and documented the molecular validation using ITS and the sequencing process. They also participated in the analysis and interpretation of the results, the writing of the Discussion, and the integration of the manuscript.

Specific contributions to the tables, figures, and image annex were as follows: Table 1: Dr. Miriam Incremona (author) and Dr. Rosanna Pioli; Table 2: Dr. Rosanna Pioli; Figure 1: Dr. Miriam Incremona (author) and Dr. Rosanna Pioli; Figure 2: Dr. Facundo Hernández; Image Annex (structures and measurements): Dr. Miriam Incremona (author) and Dr. Rosanna Pioli.

All authors have expressed their agreement with this change in authorship.

This correction is limited to the authorship and the formal acknowledgement of the contributions described above and does not affect the results, discussion, or conclusions of the original article.
